Guy's Farm and Yard is a Vermont family-owned business. After much consideration, we have decided to partner with another Vermont family-owned business as our main livestock feed supplier. Poulin Grain shares our commitment to quality and personalized customer service. Poulin Grain has been producing high quality feed in Vermont for over 70 years. Our staff has toured the Poulin Grain facility in Newport to get a look at the processes and quality control measures they employ.

We are confident that this partnership with a like-minded local company will allow us to provide our customers with the quality and service they deserve. Thank you for your continued trust and loyalty.
