GUY'S FARM and YARD

April 13, 2021

Guy's Farm and Yard Wood Pellet Customers:

Another heating season is behind us and it's hard to believe but it's already time to start making Wood Pellet allocations for next season. We hope that you and your families are well and that everyone was safe and healthy through the chaos of this past year.

Fortunately, the Wood Pellet market appears to be pretty stable this coming season. Manufacturers seem to be confident in supply and operation and the volatility that we've seen in previous years seems to have stabilized, at least for the time being.

We may have to substitute one hardwood pellet for another depending on inventory levels at any given location at any time, but generally speaking we are confident in supply for the upcoming season.

As in previous years, if you have a strong preference for a particular brand of pellet we encourage you to buy and pick up/take delivery of them early, as things can always change quickly.

The 2021-2022 Wood Pellet order form is enclosed. Prices are valid through June 15, 2021. Please contact your preferred location for order and delivery information.

Sincerely,

Sam Guy
